MOOD:  chipper

It's somebody's (<http://ace-cub-reportr.livejournal.com/>) birthday, and I can't harass him properly because his girlfriend has taken him to South America, and he is severed from the global brain.

I can, however, open the betting pool on what sort of unlikely stories he will bring back with him. And start envying this retirement thing: he seems to be pretty good at it.

#### Thank you

This is Patricia Andreoli, wife of Daphne Worth, who you all knew as Trollcatz. Daphne died

#### ...And there goes the weekend

But hey, we got a day and a half of this one! And I got to sleep in for two whole mornings. Too bad

Any chance we'll be able to get him to tell those stories to the rest of us out here in the internet?

South America, huh? Lucky guy. Happy Birthday indeed!

'Cause she's your wife--isn't marriage supposed to kill romance? :-) And I second  [inaurolillium](#)'s request for stories. I love living vicariously through my imaginary Internet friends.

A friend of mine just got back from South America.

Lesee, she ended up being evacuated from city because of a bus strike (bus strikes are serious there, people were getting killed), crossing the border on foot, and came back with a lot of great jokes about Argentinians.

Ooooh... pass along (somewhat late) wishes for a happy birthday to him from me, please?
